LOTTERY. NO:

A Telling Article on the Defeated Amendment.

The Lyon County Times says some sharp truths in the following: The people of the State of Nevada last Monday decided that they wanted no lottery. They thereby declared that they would not accept \$40,000 a year from the men who were willing and able to give it to help the State out, but they still desire to let Louisiana and California bleed the State. The reasons for the defeat of the lottery amendment, as given by the different ones, are too numerous to mention. The anti men of course, are too jubilant for any use, and are too highly moral to recognize anybody before taking a second look, for fear they may be associating with some one who is in favor of a lottery, and if they find this to be the case, they clutch their Little Louisiana ticket tightly in their pocket and move on, evidently under the impression that they were about to be robbed. It has not been definitely learned how much it cost the Louisiana Company to distill so much morality into this State, but probably it took several bunches of tickets, or the price thereof.

The Carson Tribune now seems to be well satisfied with the state of things as they now exist in regard to the lotteries, and if its owners draw a prize or two from among the tickets they get from the Louisiana Company, they will probably feel well paid for the work they did against the amendment, although they did not seem to count much with the voters in Ormsby, that county giving a majority of nearly 300 for the lottery.

The Reno Gazette, which for a month or more past, has been howling against the lottery, shut its mouth about ten days before the election for a couple of columns of advertising, is now rejoicing because Nevada people have decided to keep on sending \$15,000 or \$20,000 a month out of the State instead of establishing an institution that would keep the most of that money here, and bring twice or three times that amount into the State from elsewhere. The moral fero, stud and keno players of Washoe, declared that the measure was beaten on moral grounds only, but we opine that had they imagined that the Nevada Lottery Company might have located in Reno, the result would have been different.

The boys in the office of Reno's moral journal, have probably been forbidden to buy any more lottery tickets, but we would call their attention to the fact that there is still no law in this State that will prevent them from "jelling" their wages off for peanuts and popcorn balls.

The papers in the eastern part of the State had an idea that the Louisiana lottery was good enough for Nevadans, and did all in their power to defeat amendment 22.

The subsidized morality in the Great East is great, but now the people can go to their church fairs and societies and play grab bag, invest in two bit pin cushions to the extent of a dollar, and stand one chance in fifty of drawing the sack of saw-dust, all with a clear conscience; and upon the adjournment of church on Sunday evenings go to the club rooms and squander what money the spirit did not move them to put into the contribution box, at fero, keno, rondo or stud. Some of these people possibly have more money to spend in this delightful past-time than they did before election, but unless they play a mighty close game, it is doubtful.

The people have said they do not want gambling in the State of Nevada. Now let us see if they mean it, and will call upon their representatives in Carson to abolish all classes of gambling. There is a law against selling lottery tickets, or raffle tickets of any description in this State. Let us see how strictly this law will be enforced, and let us prohibit gambling of any kind in our moral State. If it cannot all be done at once, make a start at it this session, at least.

DIED.

In Carson City, February 17, 1889, of pneumonia and heart disease, W. R. Musgrove, a native of Carson City, aged 24 years, 10 months and ten days.

The funeral will take place from the family residence at 2 o'clock P. M. to-day.

W. R. Musgrove, better known as "Pete" was a native of this city, and one of the strongest young men physically, in the State. He was a man who had a host of warm friends in this city, and the sympathy of the community goes out to his stricken parents. He died in the same room where he was born, and leaves a mother, father and two sisters to mourn his loss.

The Small Pox Cases.

The cases of small pox in the Ormsby House are still being held in strict quarantine and the patients are getting along as well as could be expected.

There still seems to be a doubt in the public mind, relative to the nature of the disease. No one has yet accepted Dr. Lee's invitation to make a personal examination of the cases.

Dr. Davison is the only one who has seen them except Lee and he corroborates Lee's diagnosis.

Watchman Cowing who claims that it is black measles has also been invited, by Dr. Lee to inspect the cases, but he declines from prudential reasons.

Under the circumstances, it may as well be set down as small pox, and be done with.

NOTICE.

I desire to sell my home in Carson during the next thirty days.
